

The Green Education Institute

NRCA's Vegetative Roof Systems

Participants who have knowledge in roofing, construction, electricity or plumbing are encouraged to join this career training program.

This program is geared specifically to roofing professionals and those who are interested in learning about terminology, benefits, waterproofing membranes and construction details, growth media and vegetation, code compliance and business and legal issues associated with vegetative roof systems. This program provides the students with CEU's from the National Roofing Contractors Association (NRCA). This provides students with knowledge about green roofing systems. Course includes all materials, study guides and one certification exam.

PDEV220 (7.5 Hours), Fee: \$695 (*Register by Feb. 1 and receive a \$50 discount.*)

- Section M01–Mays Landing Campus
Friday, Feb. 12
8 a.m.- 4:30 p.m.

NRCA is one of the construction industry's most respected trade associations and the voice and leading authority in the roofing industry for information, education, technology and advocacy. For additional information on NRCA visit www.nrca.net.
