

**Hold the Date for the 1st Annual  
SMART Automotive / Aviation Technologies Summit  
New Jersey Motorsports Park  
Millville, NJ  
March 4, 2009**

**This 1-day Summit is expected to be one of SMART's best in a series of tech events taking place in the Mid-Atlantic region. Designed as a forum for Automotive and Aviation Technologies and Technology Related Education and showcasing the New Jersey Motorsports Park, it will bring together elements from each of these disciplines in a series of moderator led panel discussions. Through presentations from the panel and dialogue with the audience, the goal is to highlight and . discuss new trends and developments as they relate to each discipline. In addition to these panel discussions there will also be on-track demonstrations, simulators, exhibits, a luncheon with keynote speaker TBD and a wrap-up cocktail reception.**

**Participants include Automotive & Aviation Prime Contractors (both US and International), supporting sub-vendors, regional Colleges and Universities, Federal Labs and State & Local elected officials. The Italian Government and their technology related initiatives will also be featured as part of the event**
